
BEST Fleets **TO DRIVE FOR**

Is Your Fleet One of the Best?

If you're tired of seeing the trucking industry portrayed as an industry of last resort, with nothing but dead end jobs and unethical employers, here's your chance to speak up!

The Truckload Carriers Association (TCA), in partnership with CarriersEdge, are proud to announce the first annual Best Fleets to Drive For survey. The survey will be open to all for-hire trucking companies with 10 trucks or more, whether or not they're TCA members.

To be included in the survey, fleets must be nominated by one of their drivers – either a company driver or an owner-operator. Once nominated, fleets will be evaluated on their total work environment, with things like compensation, benefits, professional development, driver support, safety record, and more being scored.

Winners will be announced at the TCA Annual Convention in March 2009. Nominations close November 30, 2008.
